## WebLog Expert Crack Keygen For (LifeTime) Download [Updated-2022]

### WebLog Expert Crack Serial Key For Windows 2022 [New]

Overview WebLog Expert Download With Full Crack is a powerful software application that aims at analyzing the log files of web servers, such as Apache and IIS, and can read GZ and ZIP compressed logs. Its purpose is to reveal statistics about your website activity, namely paths through the site, visitor's browsers and many others. The user interface is straightforward and offers quick access to the main functions of the program. In order to make WebLog Expert analyze the log files, you are required to create a profile. It is possible to add multiple profiles, and to edit or delete them. A new profile can be created by specifying the name, domain and index page, by selecting the log location (local area, FTP, HTTP) and format (Apache or IIS), and by providing the source path. Moreover, it is possible to select the time interval (e.g. today, yesterday, last year) or to pick the date and hour, thanks to its built-in calendar, and add track files and filters (host, query, status code, OS, browser, virtual domain, referrer). The generated reports can be saved to HTML, PDF or CSV. Another important feature that is worth mentioning is the possibility of scheduling the process by creating multiple tasks. You are required to add a task name, the time and date, to set the priority level, and to select the profile that you want to be analyzed. The program offers details about general statistics (hits, page views, visitors, spider and average bandwidth), activity statistics (daily, weekly, monthly) which are graphically displayed, and access statistics for pages, files, images, directories, entry and exit pages, paths, file types, and virtual domains. The report also includes information about the visitors (hosts, countries, authenticated users), referrers (referring sites and URLs, search engines), browsers (OS, spider pages), errors, and tracked files. Overall, WebLog Expert can be considered an excellent tool that comes packed with all the necessary features for helping you analyze log files. System Requirements: \* WebLog Expert is capable of analyzing websites that run on the Apache, IIS, Subversion, Windows Sharepoint Services, and SendMail Web servers. 1.2 WebLog Expert is capable of analyzing up to 5000 track files and 90000 files over a month. It may take longer for websites of large size. File formats:
