We want to be just a place for our clients to talk about their problems. There is no meaningful thing in the world more grievous than to love and to be loved in vain. You can't run away from who you are. To know yourself is to know your fate. I like to write about myself. I am not as interested in analyzing myself; it's all about a grand story. I don't claim to have achieved anything with my writing. All I want is to make a contribution, make people feel, think and act. I am a writer. I like to describe the things I do and the things that interest me. This is the blog of T.J. Omondi, currently based in Nairobi, Kenya and focusing on the communities of Nairobi. It's meant to be a place where I get to write about my experiences with the local communities of Nairobi, the people that I meet and experience, the roadblocks and challenges of my life. In a world that has started to take itself seriously, I write about the things that make me laugh. Google Chrome Like many other people, I use Google Chrome but only for browsing and mail. I don't find anything else worth using it for. If you do use Google Chrome, though, here are a few tricks that I use to conserve battery life and performance. Browsing in Google Chrome is very different from other browsers. There is a way to save energy by making Chrome use the mobile version of the browser to display websites. To save battery power, it's possible to temporarily disable the mobile version of Google

Empty Temp Folders Crack is an utility that will help you to delete files and empty certain folders on your computer. Give the platform a test drive in its current form and as of today, it's good to go. Here's how it holds up. Hardware: It's a multi-touch tablet. iOS 8 takes Apple's mobile operating system to a new level, with features that capitalize on the iPad's strengths and improve on Android's weaknesses. Note: This review covers the iOS 8.0.1 and the iPad 2's form factor. Because it's a previous-gen device (an older iPhone 4 or iPad 2) and the new OS runs on an iOS device, the benchmarks here focus on the tablet. First, there are new features. The most noticeable are the huge multitasking improvements. The second-generation Retina iPad and iPad mini feature four times as many pixels as the previous crop and the new iPad Air is even more powerful. The giant iPad Pro packs next-gen, 4K-resolution, HDR display into a device that tilts all the way back to be used as a laptop and supports a vast array of sensors to use the iPad as a game controller. The new features are harder to see. The slick animation effects, for example, are easy to overlook, but the improvements here are just as significant. Android ... Android 7 brings together all of Google's apps, all of Android (at least now)'s biggest innovations and a virtual assistant that supposedly is better at understanding you than you are. Hardware: It's a tablet. This is a huge tablet, actually, and it's an easy-to-use, ultra-convenient, complete tablet. Everything about the Lenovo tablet is stellar. The quality of the materials is superb. The hinge design feels like very high-end business products. I'm impressed with the sleek industrial design, the quality of the construction and the performance of this tablet. The kickstand is sturdy and it works to angle and support b7e8fdf5c8
