Earlier on Thursday, the House of Commons voted down Prime Minister Theresa May's Brexit deal by 432 votes to 202. Farage told Fox News he was "shocked" that the deal had been voted down, noting that the United Kingdom Independence Party had campaigned to leave the European Union. TURKEY ON TRUMP EMBASSY BAN: EU NEEDS TO CHANGE ITS APPROACH TO POLITICS, OR ITS EMBASSIES IN UK WON'T BE SAFE "I thought last night when all of the MPs voted to the deal, that they were going to vote for it, so I'm really shocked that the government has just killed it off," Farage said. He added that the vote illustrated that Prime Minister May's position was "absolutely, utterly and completely untenable" and urged MPs to remain "united" behind May. "There are many MPs who will not support this in this way, and many will not support this, and there are many, many Brexiteers who will not support this," Farage said. AutoCAD's high complexity, however, made it extremely difficult to develop for. Even today, VBA is not widely used as AutoCAD's scripting language. Microsoft replaced VBA with VSTO, which is a platform that allows developers to create C#, Visual Basic, JavaScript, Visual C++ and XML, and makes it possible to develop solutions for AutoCAD. .NET is a framework that is built on the COM, Dynamic Link Libraries (DLL) and CLI (Command Line Interface) API's, and is installed on the AutoCAD startup computer. (COM and Dynamic Link Libraries are API's that allow programs to be developed and run on different Operating Systems.) The AutoCAD.NET Extensions provides a COM API (Application Programming Interface) for AutoCAD for development in C#, Visual Basic and VB.NET, ASP.NET, and

JavaScript. There are many AutoCAD.NET add-ons, including a family of tools that allow importing and exporting of DWG files to and from AutoCAD. A successor to both AutoCAD and FormZCAD, FormZ was announced on 11 March 2007, with the release of AutoCAD LT 2007. It provides 2D CAD functionality in AutoCAD format, and can be downloaded directly from the Autodesk web site. It is not compatible with previous versions of AutoCAD, and so cannot use most of the extensions that make AutoCAD so useful. Autodesk Office is a cloud service for collaborating and automating business processes. Users can host services in the Autodesk Marketplace, available for Office 365 and on-premises deployment for users with Autodesk Authoring and Integration tools.
