System Requirements For Roblox All New Free Items:

The primary goal of this mod is to use Roblox illegally. The build uses a fork of the original Game Inspector to grab parts of scripts and add them to the build file. Scripts from the original official Roblox APK are patched to remove content and replace it with hacks to get unlimited Robux and Money. Features: - Unlimited Robux/Money. - Steal resources. - Unlimited Coin regenerating for all levels in the game. - Unlimited mana. - Unlimited Health. - Unlimited Hearts. - Unlimited Aura. - Unlimited Money. Download Link (From Play Store): Key Layout: - F2 : Toggle IMPORTANT! THIS MOD DOES NOT WORK WITH ROBLOX APK SECURITY UPDATE. ANYTHING THAT CAN HACK APK SECURITY UPDATE WILL NOT WORK WITH THIS MOD. Processing: - First we need to install the original game inspector patch. The game inspector is to be installed in the main application folder. Uninstall this application first before you install this one. Otherwise you will need to remove it back before you re-install this. - Download this mod from this link. -

Open the downloaded pack and extract the directory. Move the extracted folder into the main application folder in which the game inspector is installed. - We also need to install the script patch that adds Robux/Money to the game. - The patch is to be installed into your application folder by moving a folder named "SFX.apk" into your application folder. Copy the created modded apk into the original of the game source package. - I modified apk for dex management by removing a debug flag in the original file. - The file APK.txt in the root of your source package should contain the modified version of the original APK file. - Run the patched apk and unpack the root package by entering the root of the application folder in the play store. - On unpack, the original apk files get replaced with modified apks. All of your original apks will be replaced by modified ones. - You should be able
