A: You're not asking for any input string, nor what is in the file you're reading; you're just reading the file until you reach the end of the file. Since you don't care about the lines of text that go beyond the end of the file, you don't need to close the file. As a writer who helps people get their stories on the page, I'm often asked for advice. But in any situation, it is the reader who is seeking advice and guidance. That's why, when I received my first decent royalty cheque last year, I tucked away the cash rather than giving it to a charitable cause. But then I realised I had something I could give back. Not the money, but what I learned from giving up a career and relocating to a new country. The funny thing is, it wasn't some philanthropy or generosity to my community that inspired me. It was a need I recognised. I saw something I could do Last summer I read about a man who lost his wife in a car accident. He needed to honour her memory and had started a non-profit organisation called the Marion Dyer Legacy Project. I felt a twinge of sadness in reading about this man. After all, I had been in the same position myself when my mother died. But after a chance meeting with the man, I thought, "Why not do something for people like him?" Story continues below advertisement I had planned to go to Africa, but this man's story made me think of my own circumstances and I began to wonder whether I was ready to make a transition in my life. Could I do this thing I had been considering? Last year, I moved to Toronto. Now, I'm not alone. A growing number of people are leaving where they are comfortable and moving to another country, while hundreds of thousands of others are moving from one part of the country to the other. It's easy to see how that might not be a good idea, especially if you have a career to maintain and you're not prepared. But for me, it was a way of honouring my mother's memory. I know she would have loved to see my life and my career come to a full stop for a while, just like the man in the article did. I started writing to help others A few months ago, I started writing a blog about my own story and I have received many 6d1f23a050
