a year or so ago i got rid of the athentech perfectly clear photoshop plugin on my mac, because it was crashing. it's the perfect tool for repairing landscape photos. the pro version is limited, but is still worth the money. the only thing i dont like is when you have 4 images in the background..wixsite.com/fitzdanrine/post/athentech-perfectly-clear-1-7-1-for-photoshop-32-64-bit-chin-hanemp. is there any way you can remove me from that service. ://trello.com/c/qvnpohy/14-athentech-perfectly-clear-170-plugin-photoshop-x86-x64-chin-utorrent the only thing i dont like is when you have 4 images in the background. the only thing i dont like is when you have 4 images in the background..wixsite.com/fitzdanrine/post/athentech-perfectly-clear-1-7-1-for-photoshop-32-64-bit-chin-hanemp. the only thing i dont like is when you have 4 images in the background. is there any way you can remove me from that service. ://trello.com/c/qvnpohy/14-athentech-perfectly-clear-170-plugin-photoshop-x86-x64-chin-utorrent the only thing i dont like is when you have 4 images in the background..wixsite.com/fitzdanrine/post/athentech-perfectly-clear-1-7-1-for-photoshop-32-64-bit-chin-hanemp. i have perfectly clear. the version of lightroom that i have is 5.6.2 and the version of photoshop is cs6. i followed the instructions on the website. i am now getting an error message that says, "the plugin could not be loaded. the plug-in was not found. this plug-in is required for the current operation. please contact the manufacturer for more information." do i need to install photoshop, or something?
