## **Wintv 7 Product Code Or Serial 289 !!INSTALL!!**

for the wintv v8 app, to use the sdtv channel guide and to display the program guide on the television screen, go to settings and select output. under output settings on the left side, select custom and scroll down to the output settings section. in the output settings window, under selects output device, select tv for tuner1. wintv-dualhd is compatible with microsoft windows 10, 8, 7, vista, xp or windows 98se/me. this driver also supports windows 95, windows nt4, windows 2000 and windows xp with service pack 3 or later, and windows 98 with service pack 2 or later. it is important that you set the aspect ratio to 4:3. most videos are being delivered with an aspect ratio of 4:3. in order to get the best results, your display should have a 4:3 aspect ratio. the wintv application should detect this correctly. if your aspect ratio is 16:9, then it may be resized when the video is sent. we are not responsible for any resizing of the video. we suggest that you set the video resolution to 1080i for a tv broadcast quality video and recording a tv program. to be recognized by the tvtuner setup utility you must select an option from the list. the tv tuner setup utility defaults to allowing the first tv tuner found. you will be prompted for a serial number, then you will be asked to select a format (dtv, qam or atsc). the wintv application can be installed on as many computers as needed as long as you use the same hauppauge device. we link the serial number of your tv tuner (sometimes it's the mac address) with the activation code. so as long as you use the same hauppauge device, you can install on more than one computer.
