reorganized their Drive app and it has changed how you can access your photos. This can be slightly overwhelming because there are a few different Creative Cloud plans to pick from according to what your area of interest is. To make things simple there are 3 different options that you will have to choose from that include Photoshop. First the 'Photography' plan which is \$9.99/mo and grants you access to Adobe Photoshop and also Adobe Lightroom which is a program that allows for detailed photo editing. This is a great value considering the second option is \$20.99/mo for use of only Photoshop. The third and final option which I think is the best option is the Student and Teacher plan that is \$19.99/mo and includes access to every Adobe program available. This is an amazing value because you get access to everything Adobe has to offer. From there you can learn and try new programs that Adobe offers to see what your favorite is.
